

Mold Prevention

To prevent mold and increase air circulation in your apartment / townhome:

- *Keep furniture and boxes from being directly against the walls.*
- *Change the furnace filter every month.*
- *An extra filter will be left in the unit. You will need to purchase filters for the remainder of lease agreement timeframe.*
- *Filter size is 16x25 and is available at your local hardware stores.*
- *Please keep your blinds open as much as possible.*
- *Please use the fan in bathroom(s) when showering.*
- *If you see moisture on the windows or window sill(s), wipe and dry the area(s).*
- *If you have high/create humidity within your apartment, you may need to purchase a dehumidifier.*
